THE PERFECTION OF PREPARED COCOA
MARAVILLA COCOA.
SOLE PROPRIETORS,
TAYLOR BROTHERS,
LONDON.

THE COCOA (OR CACAO) OF MARAVILLA is the true THEOBROMA LINNÆUS. Cocoa is indigenous to South America, of which Maravilla is a favored portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their soluble principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of homœopaths and cocoa-drinkers generally, but many who had hitherto not found any preparat on to suit them, have after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"AN UNPRECEDENTED SUCCESS."
See following Extract from the Globe of May 14, 1868.

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Tay or Brothers discovered the extraordinary qualities of "Maravilla" Cocoa.

Adapting their perfect system of preparation to this the finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and invalids we could not recommend a more agreeable or valuable beverage."

Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original HOMŒPATHIC COCOA and SOLUBLE CHOCOLATE.

(Steam Mills—Brick Lane, London.

Medical.
Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
HAIR DRESSING,
nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.
Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.
Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.
Singers and Public Speakers find great protection from it.
Asthma is always relieved and often wholly cured by it.
Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.
So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.
As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.
Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.
For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.
For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.
Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
PRICE, $1.00 PER BOTTLE.

CURES AND COMFORT FOR THE BED-RIDDEN.
—BY
Holloway's Ointment.
This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structure. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.
Gout and Rheumatism.
To sufferers from the racking pains of rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe
Diptheria, Bronchitis, Sore Throats, Coughs and Colds
his class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.
All Varieties of Skin Diseases, Scrofula and Scurvy.
This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained
Dropsical Swellings.
Beware of this dangerous and stealthy complain which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked to in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.
Piles, Fistulas, and Internal Inflammation.
These complaints are most distressing to both body and mind, the delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to any one
Disorders of the Kidneys, Stone and Gravel
Are immediately relieved and ultimately cured if this ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a to rough cure.
Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Disease
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular "	Tumours,
Chiego-foot,	lugs,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism

GUNPOWDER.
Sporting, Rifle, Cannon, Mining and Blasting.
Fresh from the Mills of
THE CALIFORNIA POWDER WORKS,
Extract from Report of Committee of Judges on Class 5 in the Sixth Industrial Exhibition of the California Mechanics' Institute, 1868.
Your Committee did not subject to proof the samples of powder exhibited at the Fair, but went to the different magazines, and themselves selected samples selected from packages destined for trade.
The various samples thus obtained, embracing Sporting, Cannon, Musket and Blasting Powder, were subjected to divers proofs, the chief of which, and that upon which we most relied, was with the "Eprouvette" mortar charged with 1 ounce of powder and a twenty-four pound ball.
After many days consumed in careful experimentation—time which we freely bestowed, because of the great interest felt in the question both by the competing parties and the public—and after careful comparison of the results obtained, we found that all the powder submitted to test was of excellent quality. We also found that the superiority, on the whole, rested with the California Powder Works, and therefore recommend an award of a gold medal to that company, and a silver medal to the Pacific Powder Mills.
Signed, JOHN J HALEY, HENRY J PIPPY, Committee.

Education.
ST. ANN'S SCHOOL
FOR YOUNG LADIES,
VIEW STREET, VICTORIA.
WILL RE-OPEN ON MONDAY, 6th OF SEPTEMBER
This institution is conducted by the Sisters of St. Ann The discipline of the school is mild, but firm and regular; strict attention to its regulations required at all times. The emulation of the pupils will be excited by very gentle means, and their success rewarded by an annual distribution of premiums previous to the vacation.
Difference of religion is no obstacle to admission into the institution, but whilst pupils are left without any interference to follow their own profession, good order requires that they should conform to the general regulations of the establishment.
Parents may rest assured that every necessary attention will be paid to comfort of pupils, whilst the utmost care will be taken to nourish in their minds those principles of virtue and morality which alone can make education profitable.
The system of Education comprises Orthography, Reading, Writing, Arithmetic, Grammar, Geography, and the use of the Globes, History, Botany, Natural Philosophy, Composition, French, Music, Drawing, Painting, Plain and Fancy Needlework in all its variety. au29

THE BRITISH COLONIST.

Wednesday Morning, Sept. 15, 1869.

Colonial Expenditure.

A discussion recently took place in the British House of Commons which possesses considerable interest, especially at a moment when the colonial policy of the empire is being watched with such painful anxiety. The immediate object of discussion was the vote of £68,298 for grants in aid of expenditure in certain colonies. It is impossible to read the various explanations regarding that expenditure without being impressed with the idea that British Columbia is not a favored child of Britannia, that other and far less important colonies have been treated with much more indulgence by the parent Government. For instance, there is the colony of Labuan, a most insignificant affair, nothing more in point of value, in fact, than a coal mine, and a very bad one at that; and yet it has, ever since its establishment, been a charge of £4,800, a year upon the Imperial Treasury, a charge which only ceases with the present year, Mr. Pope Hennessy, its present Governor, having succeeded in developing the coal mine by getting a number of convicts from the Straits settlements to work it Then, again, there is Heligoland, a little rocky island of less consequence than almost any one of the numerous island dependencies of British Columbia; it has never ceased to be a charge upon the Imperial Treasury. Gambia is visited with cholera and commercial depression, and instantly the Commons are asked for a vote sufficient to cover the defiiency in the revenue. St. Helena, another insignificant and worthless dependency, is visited by a "dreadful hurricane," and down comes the Secretary of State asking for a present of £3,000 to rebuild the few unroofed cabins. The valueless and most unsatisfactory possessions on the coast of West Africa are consolidated under one Government, and they must have £15,000, from the Imperial Treasury to buy a steamer for the Governor. But when it comes to be an important colony like British Columbia, with its exhaustless stores of bituminous and anthracite coal of the finest quality, with its boundless resources in gold and silver and copper and iron, with a territory twice as large as Great Britain and Ireland occupying, as it does, a most important geographical position in a national and commercial point of view, *essential*, in fact, to the perpetuation of British interests and institutions on the continent, and which would bring eighty to a hundred millions any day at the knock of the hammer, when it comes to be British Columbia that asks for Imperial aid, no matter how great the need or how small the demand, Britannia draws tighter her purse-strings, and with iron features and heart of stone answers "Not a farthing!" It may be that she proceeds upon the principle that only the illfavored, rickety, dwarfed and worthless of her children shall have help. It must be admitted, however, that the treatment received by this, her youngest, most distant and, we might perhaps, add, most promising, child has not been such as to beget filial affection. There is another notable feature of the discussion. There is a pretty general feeling that the present mean colonial policy of the empire is the policy of the party now in office, and that with the return to power of the Conservative party the Colonists might hope for a somewhat more national and more liberal policy. Sir Charles Adderley completely extinguishes that hope. He alluded to the intentions of the late Government of which he had been a member to greatly reduce the colonial expenditure, and urged upon the present administration the duty of making sweeping reductions. Mr. Monsell, the Under Secretary of State for the Colonies, and, sad to say, the sole representative of the Colonial Empire in the House of Commons, said, in reply, that the present Government had already affected a reduction in the military colonial expenditure amounting to £700,000 sterling a year, and would make a still further reduction, while with respect to the Naval and Civil expenditure in the colonies material reductions had been and were being effected.

MUSIC.—The undersigned informs the public in general that he is the *only teacher* of the *Pianoforte* who *combines Thorough-bass and Composition* with his instruction in music and singing, and is also the most *experienced* and *legitimate Tuner of Pianofortes in the Colony.* Terms—Pianoforte and Singing $6 per month Pianofortes tuned and repaired at $3 00 and upwards. Music provided for Balls, Evening parties and Dinners.—DIGBY PALMER, Kane street, or at T N Hibben & Co's Book Store, Government street.—Mrs Palmer instructs beginners on the Piano at $3 00 per month. *

Canadian Mail Summary.

Our Canadian files are to the 27th ult. It would appear that Sir John Young met with a very enthusiastic reception at Halifax, the miserable illmannerisms of the "Antis" to the contrary notwithstanding. The banquet given to his Excellency was a splendid effort. In the course of his speech Sir John Young took pains to correct the misapprehensions caused by his now celebrated Quebec speech. A New Brunswick paper, in alluding to this subject, says: "Why does his Excellency talk 'about change?' Why this continual thrusting forward of the subject? Has this tone and have these speeches of His Excellency and the visit of the young Prince, a common object? Is that object independence, a 'new nationality,' with the Prince at its head?"

The reception accorded to His Royal Highness Prince Arthur at Halifax was indeed hearty and grand. The Prince having arrived on Sunday, the formal reception was postponed till the following day, and was characterised by the usual formalities appropriate to such occasions. During the day the Prince attended a private pic-nic of 150 couples, in the superb grounds of the Archbishop of Halifax. In the evening he was present at a promenade concert which was attended by about 5000 persons. The choir sang an anthem which had been composed for the occasion, by Mr. John A. Bell, a prominent citizen of Halifax. On the following day His Royal Highness, accompanied by the Governor-General, the Lieutenant Governor, the Admirals, &c., visited the French and other warships in port. He also attended the "Scottish Gathering." 'One who was there' says, respecting the personal appearance of the Prince, "He bears a striking resemblance to the Prince of Wales when he was here, and the close likeness to her Majesty is so marked as to be distinguished at once. He is tall and slender, with a fine and faultless combed head of brown hair, and his youthful face is ornamented with an English pattern of whiskers and moustache, highly creditable to the physical development of a young man of 19"

The Rev Dr Burns, a patriarch of the Presbyterian Church, died on the 26th August, being in his 81st year. He died within the walls of Knox College, Toronto, in which institution he was Professor of Church History and Apologetics. Dr Burns was the son of Mr. Burns, Collector of Customs at Borrowstonness, Scotland, where he was born. He received his theological education at the University of Edinburgh, and entered the ministry in 1810. One of his sisters married the celebrated Dr. Guthrie, of Edinburgh; the Rev W C Burns, Missionary to China, is a son of his brother's, while the Rev Dr W F Burns, now minister in Chicago, U S, is his own son. Dr Burns left the Established Church at the great disruption in 1843, and cast in his lot with the Free Church, of which he was for many years a prominent minister. In 1845 he removed to Canada.

The Montreal *Herald* has, it thinks, good reason for believing that the presence in Canada of Sir Francis Hincks is not so completely dissociated from the politics of the country as that distinguished gentleman sought to make people believe. In fact, it is intimated that Sir Francis would not be altogether disinclined to go back into his old position of Inspector-General with a new name. That gentleman had been on a visit to his old constituency of Oxford, where he met with a very hearty welcome, a banquet having been given in his honor at Ingersoll.

It is stated that the Hon Malcolm Cameron is making his calling and election sure in North Lanark, the constituency about to become vacant by the acceptance of the Governorship of the Northwest Territory by the Hon Wm McDougall. It is thought the election will not come off before November, as Mr McDougall will hardly be appointed before October.

European Mail Summary.

[Dates to the 15th August.]

Mr Gladstone has left London for Wilmer Castle—that pleasant castellated mansion which stands midway between the cliffs of Dover and the ancient fishing village of Deal, and which has been placed at his disposal by Lord Granville, the Lord Warden of the Cinque Ports. Here Mr Gladstone will remain for a month, after which he will proceed to Balmoral on a visit to the Queen. Lord Clarendon, as becometh a Foreign Secretary, has proceeded to the continent, where he will seek health at the baths of Wisbaden. Mr Bright, after a brief sojourn at Rochdale, will probably visit his married daughter in Somersetshire, and there rest a while at Llandunno, a pretty Welsh watering-place, in the churchyard of which his son is buried. Lord Spencer has crossed the Channel to dwell among his Irish subjects Next year there will be great doings in Ireland, when the Queen, after a lapse of many years, will again take up her residence on the Emerald Isle. The new Blackfriar's bridge, which is eight feet wider than that at Westminster, and which is said to be the finest bridge in the world, will be opened to the public next month. The massive granite columns of this magnificent structure are greatly admired. A correspondent of the *Pall Mall Gazette*, apparently an Englishman, reports a most extraordinary state of feeling in the Dutch East Indies. The entire Dutch population, including the troops is discontented, ready to declare a Republic or to accept the English flag. It is believed that in the event of any attack upon Holland, these colonies would immediately declare themselves independent, or accept British rule, if they could get it, which might not be impossible if for British rule (says the *Spectator*) we substitute the rule of the Australian Republic. The Bishop of Salisbury (Dr. Hamilton) died on August 3d, after a protracted illness, and Mr Gladstone has nominated George Moberly to the vacant Bishopric of Salisbury. Dr. Moberly was born about the year 1803, and was educated at Winchester, whence he went to Balliol College, Oxford. He took his B A degree there in Easter Term, 1825, obtaining First Class Honors *in Literis Humanioribus*. Dr Moberly is understood to be a sound but moderate High Churchman, and one who is free from all Ritualistic tendencies. The Rev W C Lake has been appointed to the Deanery of Durham. Professor Du er, Director of the Irish Geological Survey is dead. The Rev J M Eaton, of Brighton, was accidentally killed while ascending the Shrock horn Mountain The woman Fanny Oliver, recently convicted of poisoning her husband, has had her capital sentence commuted to penal servitude for life, at the recommendation of the Judge. Since the opening of the French Atlantic Cable a great reduction in the rate of charges for messages has been made, and now both the English and the French companies forward simple messages at a cost of 30s, only. A verdict of £2000 damages has been returned against a lieutenant in the 13th Regiment of Infantry for breach of promise of marriage, Captain Frederick Bowker, late of the 103d Regiment, committed suicide by jumping from a window of the hotel into the yard of the Charing-cross Railway Station. At a coroner's inquest the jury returned a verdict of "Temporary Insanity."

Captain Vivian, M.P., has obtained a verdict in the Divorce Court against his wife and the Marquis of Waterford. The Wesleyan Conference has adopted a high tone towards the Rev. Thomas Hughes, who has written a book in which he urges that the system of class meetings is susceptible of amendment. They have deposed him from the office of Superintendent; censured him for his inconsistency in accepting Methodist pay while assailing a Methodist institution, and given him a year to meditate on his sin. A scheme is talked about for the removal of the residence of the Lord Mayor to the Guildhall—to build in fact a new palace which would harmonize, in its details, with that quaint, time-honored civil edifice. What think you is the value put upon the site of the present Mansion House? Half a million sterling—not a shilling less—and it is worth, if anything, considerably more. Property in the City of London is yearly augmenting in value. One would think that the time was at hand when people could not afford to buy it and when prices would necessarily fall; but that time is not yet. The Australians are a little discontented that so small a share of recent emigration from this country has found its way to their shores; and in Victoria a new land law has been adopted, which, unless we greatly mistake, will have the effect of drawing thither a large number of the small farmer class. It is not impossible that Great Britain will give up one or two of her pestilential settlements on the West Coast of Africa—the Gambia and the Gold Coast, for example; and we should not be suprised if large reductions are not made in the West African squadron. Mr. Childers' attention is being directed to that quarter, and the temptation to economize by recalling some of the ships is almost irresistible. The troops have been ordered home from the Cape. The Cape mounted police, under the command of Sir Walter Currie, have proved a very efficient force; and though the colonists do not like to do without the soldiers, it seems probable that they will be able to get along very well without them. There has been a considerable amount of talk lately about the charge made upon the British taxpayers for the presents which the Duke of Edinburgh distributed while in Australia. As the Duke receives fifteen thousand pounds a year from the British nation, it is thought that he should have paid for the presents out of his own pocket, the more so as the nation does not benefit by those which he has got in return. The Australians have made a great fuss about the matter and even talk about sending England the money; but we suspect that before coming to the vote, they will think better of it. Her Majesty is annoyed, and justly annoyed. She has ordered that the Prince shall during his visit to India, neither give nor receive presents. As this will by understood by the Indian Princes, it would be better that he should make presents in an official capacity and that those be received in return should be handed to the Government. This is the plan adopted by the Governor General, who never retains for his private use the presents made to him.

Australia and New Zealand.

The Melbourne and other colonial papers complain bitterly that the British Parliament has been asked to pay for the presents made by the Duke of Edinburgh during his recent visit.

Later telegrams from Galle give the chief items of news coming by the July mail. From Victoria we learn that the revenue is largely increasing, but that business was dull. The Parliament was discussing a new Land Bill

From Sydney it is reported that meat preserving for Europe is being largely carried on. Fresh discoveries of diamonds and gold have been made.

A new Ministry has been formed in New Zealand, whose policy towards the rebels was to be of a defensive character. The surrender of 200 rebels is mentioned.

BOOK BINDING.—T. N. Hibben & Co have, in connection with their Book and Stationary Business, added BOOK BINDING, and the various branches connected therewith, and will add the mechanical parts and material necessary for meeting the requirements of the Colony, guaranteeing neatness, dispatch and satisfaction in all work entrusted to them. *

A CASE of *bone Cancer* was laid before a convention of *seven hundred* doctors in Philadelphia, and the unanimous decision was that amputation was the only alternative. The patient was entirely cured without amputation by using the "Macamoose" 3*

FELL'S COFFEE has become the favorite Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of the Rocky Mountains. *

BUY IT AND TRY IT.—Russell's celebrated coffee. The best on the Coast. Warranted a pure and healthful beverage. *

REV I. R GATES should be considered a *public benefactor* for introducing to the afflicted the Great Indian Remedy known as the "Macamoose."

HOLLOWAY'S OINTMENT.—Turn which way you will, go where you please, persons will be found who have a ready word of praise for this Ointment. For chaps, chaps scalds, bruises and sprains, it is an invaluable remedy; for bad legs caused by accident or cold it may be confidently relied upon for effecting a sound and permanent cure. In cases of swelled ancles, erysipelas, gout and rheumatism Holloway's Ointment gives the greatest comfort by reducing the inflammation, cooling the blood, soothing the nerves, adjusting the circulation, and expelling the impurities. This Ointment should have a place in every nursery. It will cure the long list of skin affections which originate in childhood and gain strength with the child's growth. 30

Bristol's Sarsaparilla and Pills

Are prepared expressly for the cure of those diseases that have their origin in impure blood and foul and vitiated humors, and for 35 years they have proved that in all erupted skin diseases, in all mismatic and scrotulous or cancerous diseases, and in every form of ulcerous and scabious disease, these two great remedies never fail in effecting a cure. 566

MERIT REWARDED.—It must be a source of gratification and pride to the inventor, after years of study and toil, to have success crown his efforts and know his labors are appreciated This is peculiarly the case with Dr. Walker's Vegetable Vinegar Bitters which is composed of purely vegetable preparations, making the most effectual alterative that is possible for the medical intelligence and skill of our times to produce 27

DR. CHING FUN—A CARD.—EDITOR BRITISH COLONIST:—Through the medium of your paper I want to state the very great good that has been done me by Dr Ching Fun of this city, next door to Kwong, Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three firstclass American physicians Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr Ching Fun, and after five months' treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief Respectfully, JOHN HENTON, of Kentucky, U S Victoria, 3d August, 1869 se24m

THE BRITISH COLONIST.

Wednesday Morning, Sept. 15, 1869.

Per stmr Eliza Anderson from Puget Sound—23 bxs fruit, 3 horses, 17 sheep, 13 cattle, 2 calves.

DIED.

In Paris, at the age of 26 years and 7 days, Matthew Arthur David, only surviving son of Jules and Marguerita Constance David, a native of New Orleans, Louisana.

THE AGRICULTURAL AND HORTICULTURAL EXHIBITION.—The following notice has been issued by the Lands' and Works' Department. It shows a commendable spirit on the part of Government: "Notice is hereby given that all persons resident in the various districts visited by the steamer Sir James Douglas, who propose to become *bona fide* exhibitors at the forthcoming Agricultural Show at Victoria will receive a refund of their passage money and the freight charges on produce intended for the Exhibition, on presentation to Capt Clarke of a certificate from the Committee of Management that the articles purporting to have been brought down for exhibition have been duly accepted and deposited with the Committee. Forms of the certificate can be had from Capt Clarke. Passage money and freight money must in all cases be paid in advance, and the refund will in no case be made unless the required certificate is produced." In addition to these liberal concessions the Hudson Bay Company and Capt Fleming will carry free from the mainland all articles intended to be placed on exhibition, and the U. S. Collector at Port Townsend has consented to re-admit duty free all articles from the American side exhibited here, while the steamer Wilson G Hunt will make no charge for freight. Matters appear thriving.

THE plan of tunnelling the Straits of Dove is practically abandoned. The engineers of both France and England declare the project entirely feasible, but they estimate the cost at fifty million dollars, and as it would require twenty thousand passengers a day at something over a dollar apiece to make the enterprise a paying one, and no one anticipates any such amount of travel, there is little probability that private parties would undertake the work. It may be that the Governments of France and England will some day set about it.

THE AMERICAN COASTING LAWS.—A New York dispatch says that the Shipowners' Association have held a meeting and discussed the law prohibiting foreign built ships from sailing under American colors, A committee was appointed to draft a memorial to be presented to Congress, asking permission to buy ships in the best markets and admitting ship building material free of duty. It was the sense of the meeting that American ships will soon be entirely driven from the ocean, unless allowed to compete equally with foreign ones.

REAL ESTATE SALES.—The sales by auction yesterday of real estate indicate an improved feeling. At Mr Davies' sale a farm of 27 acres in Victoria district brought $1015 to Mr Geo. Deans; and a small house and lot on Quadra street, to E Willson, $575. At Mr Franklin's sale a rocky lot at the corner of Cook and Pandora streets brought $92 50; 600 acres in Lake district, 80c. per acre; 280 acres in Metchosin, $1 50 per acre; 580 acres in Esquimalt, 50c. per acre; 100 acres in Esquimalt, 65c. per acre. These transactions were for cash.

LARGE LAND SALE,—On the 26th ult. 32,000 acres of land in Kansas were sold to the representatives of an English colony of 1200 families. It is all in one body, mostly rolling prairie, on the line of the Kansas Pacific Railroad. The average paid was $3 75 per acre. A portion of the colony has already arrived and commenced improving the lands. These colonists are of a good class, and each is said to have sufficient means to stock his farm.

"PADDLE YOUR OWN CANOE."—The Englishman who paddled his own canoe up the Rhine, down the Danube and Volga, has started on a similar journey from New York to New Orleans. He goes by river and canal to Philadelphia, Baltimore and Washington; thence to Pittsburg and down the Ohio and Mississippi rivers.

TELEGRAPHIC.—Mr Gilbert, now in charge of the Victoria office, goes to San Francisco and will be succeeded by Mr Howe, of Pomphrey's Landing, W. T.; and Mr Pitts, late of the Barkerville office, goes to Olympia, W. T.

THE EXHIBITON MEETING.—The meeting of the Agricultural Society took place yesterday, Jas. Lowe, Esq., President, in the Chair. It was decided to have a dance in the evening, for which a large platform is being constructed. Admission to the Exhibition and to the evening entertainment will be free, to non-subscribers 50 cents each. The Committee announced sufficient funds on hand to meet the prize list, and it is hoped that enough will be realized from the admission fees to meet contingent expenses.

THE CIRCUS.—Last evening the tent was crowded and several new acts were introduced. Among them were the "Morning Star" and "Pete Jenkins," which took amazingly. Mr. Lee, for the first time in two years, appeared in the Globe Act and won great applause. This evening, yielding to a numerously signed requisition, the company will play again, at the reduced rates, Go, everybody, and enjoy yourself.

LEECH RIVER.—Several prominent gentlehave been out during the last few days to this old mining locality, and expressed themselves highly pleased with the hydraulic works, having no idea previously of their extent or magnitude. We trust this visit will result in giving strength to the efforts to be made during the forthcoming season.

THE steamship Gussie Telfair arrived from Portland at 2:15 o'clock yesterday afternoon bringing among her passengers Rev Mr Somerville and wife, Lieut. Dickens, R. N., and Mr. Frank Tarbell. The Telfair is commanded by Capt Sherwood, Capt Sholl having been ordered to San Francisco.

NAVAL.—H.M.S. Satellite, Captain Elye, will sail on Saturday morning for the Southern Coast.....Lieutenant Dickens, who arrived yesterday, joins the Cameleon, *vice*-Count Metaxa, promoted, who goes home.

LOADING.—The bark Prince of Wales, for the Hudson Bay Company, and the bark Alpaca, for Sproat & Co., were loading at London on the 15th August.

GRATIFYING.—The news from the Dawson whalers contained in a letter from Capt Douglas, in this morning's issue, is quite encouraging.

THE centennial anniversary of the birth of Alexandre Von Humboldt was celebrated by a dinner at the Richmond last evening.

THE Gussie Telfair will load at Orcas Island with lime and a Nanaimo with coal and sail hence for Portland on Friday.

A SHIP with 1000 tons of railroad iron on board for the Oregon Central Railroad has arrived at San Francisco from Cardiff.

A DIAMOND, worth £80,000—nearly $400,000—has just been picked up at the Cape of Good Hope. We shouldn't object.

THE Atonement Fast commenced at 6 o'clock last evening.

THE G. S. Wright, s.s., will sail from Portland for Victoria to-morrow.

THE latest letters and papers from England are to the 15th ult.

The Dawson Whaling Party — The Perils of Whaling.

WHALING STATION, CORTEZ ISLAND.
Thursday, Sept. 2nd, 1869

EDITOR BRITISH COLONIST.—Since my correspondence with you last, I regret to inform you we unfortunately ran on the reef with the schooner off Mary's Island, on the 18th of August during a heavy S.E. wind and very foggy. It caused a little damage which took a great deal of time to repair; we had at the time three "whales" in the schooner. We left the station for whaling on the 24th August, the same afternoon I caught a whale. On the 27th the second boat caught another. I happened to be close at hand and got up to the boat and put my iron in the whale—rather a hard fellow to kill—blowing pretty fresh from the Southeast. Three bombs were put into the whale. He made one circle and went down. On its coming up, he rose immediately under the bow of our boat and put his head exactly upon it and took it under a considerable distance. On it coming to the surface of the water it was bottom upwards. All hands, of course swam for their lives. On recovering themselves they secured everything and swam to the boat, which had risen bottom up. The second boat was still fast to the whale; they secured my line, which was turned out of the tub 180 fathoms. By the time they got all my line in their boat and up to the whale it was dead. The whale was towed by them to the schooner and taken ashore. We were then picked up and got our boat turned right side up, everything being put into her and put to rights. We cut in the whales the next day, put the blubber on board the Kate and sent it to the tryworks. We immediately started out for whales again on the 31st of August. Very few whales were seen on that day and little wind. The whales are very numerous at times and in splendid order. You may expect the schooner in Victoria in about two or three weeks with a cargo of oil. All hands are in good health and good spirits.

A. DOUGLASS.

The last Police Court Scene.

EDITOR BRITISH COLONIST:—In your account of the Court proceedings yesterday I was surprised to hear C S Scott swear to disgraceful falsehoods, which I can prove to be such, as I was neither drunk nor in the place he stated, but was coming out of the Telegraph Hotel at the time I met him. I asked him for the money that I gave him to carry to town for me, when he struck me in the face. My character is known in every town I have worked in, and I am neither a drunkard nor do I frequent houses of ill fame as stated by him. When I asked him for my money he told me that he was robbed of it in some shanty over James Bay. Besides losing my money I lose what I laid out to supply Scott in provisions through the winter, and in return receive ingratitude and insult. But it would appear that an Indian whisky-seller's word goes before a hard workingman's.

WILLIAM COSGROVE.

The Thistle and Cow Nuisance.

EDITOR BRITISH COLONIST:—I understood the Corporation employed people to extirpate all the thistles that showed their vile heads in the streets of the city. I wish they would visit the vicinity of the Collegiate School. There they will observe a perfect plantation growing most luxuriantly and just in the act of distributing their fleecy seeds over the surrounding country. This great nuisance ought to be done away with as soon as possible. There is another nuisance that I would wish you to call the attention of the Corporation to. It is the straying of cattle through the streets. It is sheer nonsense to talk of the "poor widow's cows." Where are the widows, or who are they that own cows? I know many cow owners who are not widows, yet their cows roam about the streets and defile our sidewalks. See that the Corporation do their duty and carry out to the strict letter of the law the Cattle Ordinance. If not, we will elect men that will do it. I dont want o show any lenity to bearded "widows"

SPECIAL TO TH DAILY BRITISH COLONIST

LAST N GHT'S DISPATCHES.

Canada.

QUEBEC, Sept 11—Two ships were wrecked in the Gulf of St. Lawrence during the gale. The crews were saved; the vessels in the harbor were badly damaged.

Europe.

LONDON, Sept 11—The Bishop of Exeter will resign as soon as arrangements for the change are completed.

LONDON, Sept 11—A Paris letter published here to-day says reports of a possible abdication are shadowed and that it is not an improbable event. The Emperor is liable to have a return of his sickness which incapacitates him from business. Many think his son's majority will be proclaimed on his next birthday.

PARIS, Sept 11—The official newspapers to-day announce that Napoleon is well.

DELAYED DISPATCHES.

Europe.

LONDON, Sept. 3.—The *Times* has an editorial on Mrs. Stowe's *Atlantic Monthly* article relating to Lord and Lady Byron. The writer considers Mrs. Stowe's story a faithful report. Lady Byron's statement her solicitors manifest a desire to discredit, but they do not contradict the story.

The *Times* thinks Lady Byron was probably a victim of delusion. It cannot conjecture how she first came to entertain suspicions, but can easily understand how, being entertained at first, they imposed on herself, then on Mrs. Stowe. It would only be what thousands of unhappy wives have done before to have such ideas of exceptional enormity.

The *Pall Mall Gazette* thinks Mrs. Stowe, not a serious offender if the grand-children seriously thought of publishing Lady Byron's papers. The solicitors, in their letter recently published, make no charge of inaccuracy, but only that of incompleteness. The inference is that Mrs. Stowe's is incorrect, but more remains to be told.

The *Morning Post* says Lady Byron in her will committed her papers to trustees, and under certain conditions, and Mrs. Stowe is not her trustee. Her story is entirely fictitious, and she committed a breach of confidence and an offence, by her own showing, that don't signify whether Mrs. Stowe was ignorant of the terms of the will or not. It was violating confidence and an outrage on the dead and a disregerd of the feelings of the living. She should know that the public conscience cannot be offended with impunity.

The *Times* comments as follows on Cardinal Cullen's last pastoral, and on the claims put forth by the Roman Catholic Bishops of Ireland; they demand common education and the exaltation of denominationalism. The language Archbishop Cullen must provoke resentment. The pretensions of the Catholic hierarchy toward the State are intolerable. There is not one of their resolutions on education which people will not impartially repudiate, and which brought before Parliament would not be repealed. The lesson of the last two years seems lost on the prelates. They have not understood how a proposition of great moderation and acknowledged wisdom proved abortive last session through the profound antipathy of Parliament to applying the public money to the Catholic Churches. The present proposals are about as hopeless as any that could be propounded. England and Scotland will not listen to them. Even in Ireland they will not command the assent of classes interested in higher education. In Parliament they would be mentioned only to be condemned.

A letter from Florence says the brigands in southern Italy have recently grown very bold. They have robbed several travelers and two wealthy Englishmen were carried to the hills and held for ransom.

The discussion of the probable fate of D. Livingstone, has been renewed in England. Capt. Burton, the African traveler, believes the Dr. is a prisoner in the town of Luscuela the Capital of the Kingdom of Cosrobee, and an expedition to search for him is talked of.

William Howitt writes to the *Daily News* to-day on the Byron scandal. He says there there is little doubt that the altered conduct of Lady Byron toward her husband, was the result of her father's representations, backed by some odious story. He traces the conduct of the wife in buying up her husbands memoires and destroying them, thus destroying the evidence and depriving Byron of the opportunity of self-justification. They should deprive the wife of the right to advance fresh charges. The writer feels certain that this will be the ultimate verdict of the public.

LONDON, Sept. 5.—Mr. Aytown has written a note defending Lord Byron and discrediting the statements of Mrs. Stowe.

The *Evening Post* to day has an article on Canadian affairs. The writer says the consolidation and developement of Canada are at hand. Immigration is encouraging the Government in its native relations with the United States is in a fair way of improving the people. Immigration and money are the great considerations. Let Canada show that these can safely and profitably be sent to her and the old country will be found supporting and invigorating in a better manner than in supplying her with inadequate garrisons.

The Marquis of Hartington attended the Cutlers' banquet, at Sheffield, last night, and made a speech; said the task of the ensuing session of Parliament would be the settlement of the Irish land question, and he hoped the subject would be debated with as little political feeling as possible. Statesmen of various opinions had shown an honest disposition to grapple with the difficulties surrounding the matter.

Cuba.

HAVANA, Sept. 5.—Foreign residents of the city, principally Germans, are enlisting in the volunteer reserved battalion, when the present volunteers take the field, and have tendered their services to the Governor-General who accepted the offer.

Eight hundred insurgents suprised 400 volunteers and repulsed them. Puello with 400 troops marched to the assistance of the volunteers, but the insurgents declined to fight.

On the 16th of August the insurgents several thousand strong, commanded by Quesada and Cespedes, attacked Las Tunas. The fight lasted nine hours, the insurgents losing two hundred killed. The garrison of Las Tunas was composed of 400 men, of whom 100 were killed or wounded. The final result is not stated. Gen Berigan arrived from from Las Tunas a day afterwards with a convoy. He had a skirmish along the road and sustained a slight loss.

Medical.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

DOCTOR LERAS'

(Doctor of Medicine.)

LIQUID PHOSPHATE OF IRON.

The newest and most esteemed medicine in cases of: **Chlorosis. Pains in the Stomach. Difficult Digestion, Dismenorrhea, Anæmea, General Debility and Poorness of Blood.**

It is particularly recommended to regulate the functions of nature, and to all ladies of delicate constitution, as well as to persons suffering under every kind of debility whatsoever. It is the preservative of health par excellence, in all warm and relaxing climates.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Consumption and other Diseases of the **Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR. BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and Laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera** as it is a preventive and a cure in cases of Diarrhœa

GRIMAULT & Co.'s

Syrup of Ferruginous Peruvian Bark.

Chemists to H. R. H. Prince Napoleon, 43 rue Richelieu, Paris.

This preparation has the great advantage of combining two most powerful tonics known in the medical world. Of perfect limpidity and agreeable taste, this Syrup is taken with pleasure and suits the most delicate stomachs It is par excellence the FERRUGINOUS TONIC which should be administered to ladies of delicate constitution, young persons backward in attaining the age of puberty, and to children of a weak constitution and is particularly employed in the treatment of Chlorosis, Anæmia, Pale Complexion, Gastrics, Gastralæ, Whites, Leucorrhea, Debility, Want of Appetite, Poverty of Blood, &c.

No more Dyspepsia, Vomiting during Pregnancy, or Sea Sickness.

GRIMAULT'S ELIXIR OF PEPSINE.

Pepsine undergoes no alteration in this delicious preparation. It will consequently be preferred to Pepsine Powders or Pills It is the digestive medicine par excellence and is at the same time a most agreeable table liqueur.

Messrs. Grimault beg to call the attention of the faculty and the public in general to the fact that real pepsine is prepared in France alone. It is far superior to all others often extracted from the stomach of porci.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr Ricord, and found greatly superior to all hitherto known mineral remedies and Copahia and Cubebs. The injection is used in recent, and capsules in more chronic cases.

SYRUP AND LOZENGES OF SAP OF SEA PINE.

Prepared by Lagasse, Chemist, at Bordeaux, posesses the Balsamic and Resinous Properties of the Sea Pine. It is employed with success against affections of the Chest, Cold, Bronchitis, Catarrh, Asthma, Influenza, Hooping Cough, etc.

In Victoria—Messrs. LANGLEY & CO.

Coughs, Colds, Rheumatism, Diarrhœa, Dysentery, and Fever.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWNE'S CHLORODYNE—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and fill a place."

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

DR. J. COLLIS BROWNE'S CHLORODYNE—Extract from the General Board of Health, London as to its efficacy in cholera. "So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay. "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the inventor was DELIBERATELY UNTRUE.

Sold in Bottles, 1s. 1½d., 2s. 9d., 4s. 6d., and 11s., by the Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London. jel4 law

Medical.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

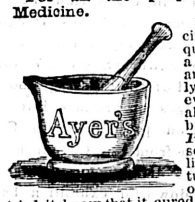
Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.



Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill.* The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill,* take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., Practical Chemists,
LOWELL, MASS., U. S. A.

MORE THAN 200,000 Persons

Bear testimony to the Wonderful Curative Effects of

Dr. Joseph Walker's

These Bitters are not a gilded Pill to delight the eye or please the fancy, but a medicinal preparation composed of the best vegetable ingredients known.

The Life of all Flesh is the Blood thereof—Purify the Blood and the health of the whole system will follow. It is a gentle Purgative as well as a Tonic.

CALIFORNIA VINEGAR BITTERS

Manufactured from the native Herbs and Roots of California,

The Great Blood Purifier.

FOR INFLAMMATORY AND CHRONIC RHEUMATISM AND GOUT, DYSPEPSIA or INDIGESTION, BILIOUS REMITTENT and INTERMITTENT FEVERS, DISEASES of the BLOOD, LIVER, KIDNEYS and BLADDER, these BITTERS have been most successful. Such Diseases are caused by VITIATED BLOOD. which is generally produced by derangement of the digestive organs.

Cleanse the vitiated Blood, whenever you find its impurities bursting through the skin in Pimples, Eruption or Sores; cleanse it when you find it obstructed an and sluggish in the veins; cleanse it when it is foul, an your feelings will tell you when. Keep the blood health and all will be well.
